# The new recycling areas are coming!

# What are the recycling areas?

Recycling areas are automated collection points to help you dispose of your waste in the right way, **24/7**, in a **clean, tidy, trackable way**.

The automatic drawers only open with your **personal magnetic card**.

The system recognises **your code** and records your waste disposal, to improve the service and keep your city clean.

## What will i find there?

You can dispose of your waste every day:

### PAPER AND CARDBOARD

Without any bags, trying to reduce volume as much as possible

### PLASTIC AND ALUMINIUM

In the yellow bag, reducing the volume as much as possible

### ORGANIC WASTE

In any biodegradable or compostable bag

### NON-RECYCLABLE

In the grey bag

### ...AND GLASS?

This should be disposed of in the usual containers found in the streets

## How does it work?
